Press release

PrismaLife achieves highest evaluation in PAI-Rating

- ❖ The life-insurer received 9,5 out of 10 points in Zielke-Rating
- ❖ Gold-Label for quality of disclosure, climate, environment as well as Social and Governance
- ❖ High transparency in sustainability disclosures for investors

Ruggell, 07.05.2024. In Zielke's PAI-Rating, PrismaLife AG received the highest score with 9,5 out of 10 possible points. The life insurance from Liechtenstein has one of the most comprehensive reports on the principal adverse impacts of investment decisions on sustainability criteria (Principle Adverse Impacts, PAI). Analyst Carsten Zielke examined a total of 57 life insurance companies with regard to the transparency of their sustainability reporting in the reference year 2022 and assessed compliance with regulatory frameworks such as the EU climate targets and Article 7 of the Sustainable Finance Disclosure Regulation (SFDR).

«We are very proud of PrismaLife's excellent rating in the PAI industry comparison. Increasing regulation makes reporting complex, but we welcome the increasing clarity of the requirements regarding sustainability standards", says Holger Beitz, CEO of PrismaLife AG. «After all, transparency is a key factor for investors when it comes to taking sustainability aspects into account in their investment decisions.»

Although 93 per cent of all life insurers reported on the principal adverse impacts of their investment decisions on sustainability criteria, only 40 per cent did so comprehensively. Only 16 of the 57 analyzed life insurers received the Gold-Label (8 to 10 points) based on their scores in the disclosure quality, climate, environment as well as social and governance categories. Of these, only two insurers achieved the highest score of 9.5 points. 18 companies received the Silver-Label, nine companies Bronze. A further 14 life insurers failed to achieve the minimum score of 5 points.

ESG score of investment further improved

PrismaLife has continued to consistently pursue its sustainability goals since 2022. Based on data from MSCI ESG Research, the ESG score of the investments in the cover pool remained constant at a value of 7.27 at the end of 2023. Since January 2024, PrismaLife offers 68 funds classified as sustainable by Morningstar for customers' investments as part of its unit-linked insurance policies.

The Sustainability Report 2022 is available on the PrismaLife-[Website](#).
